## PROFILE INFO

Full-stack Developer with 3 years of experience building scalable and high-performance web applications. Skilled in React.js, HTML, CSS, JavaScript, TypeScript, Node.js, Express.js, MongoDB, Git, GitHub, and Postman. Strong focus on UI/UX, responsive design, clean architecture, and API integration. Proven ability to deliver user-centric solutions and collaborate effectively with cross-functional teams.

## EXPERIENCE

### WIPRO

#### DEVELOPER L1

2022 - Present

- Developed responsive, user-centric UIs using React.js, HTML5, CSS3, and Material-UI
- Integrated RESTful APIs and collaborated with backend teams to ensure seamless data flow
- Built and maintained backend APIs using Node.js and Express.js for key application features
- Designed and implemented MongoDB schemas for managing product, user, and order data
- Used Postman for testing and documenting APIs during integration
- Conducted UAT sessions with Metro France clients to validate and demo features pre-deployment
- Deployed features and hotfixes across dev, pre-prod, and production environments
- Resolved 30+ frontend and backend issues across multiple sprints to improve performance and stability
- Managed code versioning and collaborative development using Git and GitHub
